PROJECTS

DREWRY

08/2022 - Present

<https://www.drewry.co.uk/>

Project Summary and Primary Responsibilities

- The Drewry Project is a web-based application, developed using the Laravel PHP framework. It serves as a sophisticated tool for freight rate calculation and comparison, aimed at enhancing efficiency and decision-making in shipment transportation.
- Enhanced user experience and functionality by efficiently developing new features and resolving bugs.
- Leveraged Laravel, VS Code, MySQL, MySQL Workbench, HTML, CSS and JQuery for project development and execution.

MANI RBI

10/2021 - 07/2022

https://play.google.com/store/apps/details?id=com.rbi.mani&hl=en_IN&gl=US

Project Summary and Primary Responsibilities

- This app helps visually impaired & visual-hearing impaired person for Indian currency identification through ML and camera scanning.
- Worked on its major version update where new regional languages were added for different regions of India.
- Fixed crashes and bugs.
- Leveraged JAVA, Android studio, Machine Learning, TalkBack, Gesture Control, and Light Sensor in project execution and enhancements.

ALVIE HEALTH

03/2021 - 08/2021

https://play.google.com/store/apps/details?id=com.siyatech.onko&hl=en_IN&gl=US

Project Summary and Primary Responsibilities

- In this project, wrote unit tests that contributed to a 35% increase in test coverage.
- Leveraged JAVA, Android, along with testing tools such as PowerMock and Mockito for project development and testing

SEAMFIX

10/2020 - 01/2021

Project Summary and Primary Responsibilities

- Designed and developed an Android application that utilizes prebuilt native C++ libraries to accurately estimate age and detect gender of an image.
- Developed an API using the Springboot framework, designed to detect if an image is centered on a human head.
- Published libraries over nexus to increase accessibility of libraries.
- Leveraged JAVA, Android, .SO files, OpenCV, Springboot and Nexus in project development and execution

SKILLS

Programming Language & Database

PHP Laravel JAVA Kotlin

Javascript JQuery MySQL

Domain Expertise

LAMP Tech Android Development

Architecture Known

MVC MVP MVVM

Tools

GIT Bit Bucket JIRA Trello

Android Studio VS Code Postman

EDUCATION

Bachelor of Technology

Galgotia college of engineering & technology

GPA
8.13 / 10

2016 - 2020

Intermediate

Sharda Kisan Inter College

GPA
8.69 / 10

2013 - 2014

High School

Government Inter College

GPA
8.38 / 10

2011 - 2012

ACHIEVEMENTS

Demonstrated quick learning capabilities by learning the Springboot framework and creating a client-required API within a week.

PASSIONS

Listening audiobooks, Playing & watching Cricket
