📁 PROFESSIONAL EXPERIENCE

Nauggets

Software Developer engineer

11/2022 – present | Delhi

- Design and implement multiple features in fin-tech products.
- Designed and developed a fintech transactions dashboard and reports for admin. Develop partner B2B module for nauggets.
- Developed and maintained web applications with Reactjs and Nextjs, Optimisation, and front-ends focused on user experience.
- Developed and implemented new features for the Nauggets platform, including reports, historical gold price chart, and authentication functionality.
- Set up InfluxDB as a microservice in the backend, enabling efficient data storage and retrieval for the application.
- Created email templates for automated notifications, improving user engagement and communication.
- Contributed to the development of a campaign page on the Nauggets website, showcasing product offerings and driving user engagement.

Xencov

Software Developer Intern

02/2022 – 11/2022 | Delhi, India

MERN Stack (Framework Using Nestjs, React.js, Next.js, Mongodb, twilio, SNS and basic AWS for the linux hosting).

📁 PROJECTS

Nauggets

11/2022 – present

- Nauggets is a fintech product that facilitates buy, sell and spend in gold. They offering a digital platform or service for investing in gold.
- Invest your money with Gold at the current rate, Real-time gold purchase, sell the gold at the current price and convert gold into multi currencies and send money in your bank account and transfer to other vendors on Nauggets. Virtual Debit cards and other services like banking.

Janus AMT: Asset Management Tool

07/2022 – 11/2022

Janus Aviation has been providing aviation services at airports across the country to various aviation stakeholders since 2006.

- Developed an Asset Management Solution to track, monitor, and manage their assets efficiently and also worked on the Maintenance(Bug fixing, Enhancement) of the Project.
- Developed comprehensive modules, including Purchase Orders, Sales Orders, Status, Jobs, Notifications and Authentication to efficiently manage diverse assets at multiple airports across India for Janus.

Future Tayari

07/2022 – 11/2022

An Ed-Tech soft skills development platform where users can purchase various courses to improve their soft skills.

- Created and implemented core features including Authentication, Coupon System, Cart Functionality, and an intuitive admin panel to enable dynamic content management for the web application.
- Worked on creating and managing various types of reports. I strive to ensure that the email templates are visually appealing, responsive, and compatible with different email clients.
- Contributed to the development and implementation of a dynamic multi-route website, leveraging advanced CSS techniques for enhanced user experience and seamless navigation

🎓 EDUCATION

B.Tech (Computer Science & Engineering)

Galgotia's college of engineering and technology

08/2020 – 08/2023

Greater Noida, India

CGPA:6.7

🧠 SKILLS

Javascript

Proficient

React.js

Proficient

NEST.js

Intermediate

Redux

Intermediate

Mongodb

Intermediate

MERN Stack
